DIARY NOTES

DD/S

24 January 1967

1. Frank Pace--Midcareer Course: John Bross called to advise that Frank Pace had accepted our invitation to address the Midcareer Course on 3 March. I put John Richardson in touch with Bross to follow up with the necessary arrangements. Richardson will alert me early in February and we will seek to arrange a short meeting between Admiral Taylor and Pace as a welcome to the Agency.

2. Dining Room Suggestions: Colonel White passed to me a suggestion from the DDCI as well as several other suggestions that he had received orally. I passed these to [REDACTED] work out with [REDACTED] in the Dining Room. Most all were good and worthy of following through.

4. Parking Lot Lights: I had several complaints at the Executive Committee meeting about the parking lights being turned off at 7 p.m., particularly in West Parking Lot and found that this was done by GSA as an economy measure. I informed Logistics Services to keep these lights on until a reasonably late hour and asked Security to be alert to the problem and see that girls working late have a safe escort to the parking lot.
